INSTRUCTION

1. District-Sponsored Instruction Options (see Board Policy IGCE)

The Jefferson C-123 School strives to provide a diverse range of courses to meet student needs and interests. In addition to traditional course options, the district encourages staff to seek nontraditional methods of instruction to assist students toward graduation and vocational preparation. Staff are particularly encouraged to seek nontraditional alternatives to provide a wider range of courses for students. In addition, the district may utilize diverse instruction options for homebound students, students under long-term suspension or other students the district determines to be in need of alternative instructional arrangements.

Nontraditional instruction may include off-campus instruction, virtual instruction or other instructional experiences outside the regular classroom setting. Before arranging for course credit for nontraditional instruction, staff must verify that such instruction is eligible for state aid and is consistent with the instructional goals of the district.

Unless otherwise required by law, participation in nontraditional instruction programs is a privilege. Students who do not succeed in alternative instructional environments may be transferred to other programs, including the district's standard program. Students are subject to district discipline while participating in the nontraditional courses. Unless otherwise required by law or approved by the superintendent or designee, students who fail to complete a course, drop out without district permission or are expelled from a course will not be allowed to take another nontraditional course at district expense.

All grades and credits earned through district-sponsored virtual instruction will be accepted as if earned within the district. The district will collect state funding to the extent possible for resident students enrolled in virtual instruction.

- (a.) In addition to offering dual credit courses, the district may enter into an agreement with a Missouri public community college or public or private four-year college or university to offer students post-secondary courses on the post-secondary school's campus at the district's expense. Students will receive both high school and college credit.

BUILDING/GROUNDS

The school building/grounds belong to you, your parents, your neighbors, and your friends. They are public property and are here for your use. We will do our best to keep them clean and in good repair. Jefferson is a small school with limited funds, thus, money spent on carelessness, damage, or loss, is taking away from the main purpose of the school, the best education possible.

Students will be held responsible for the proper care of books, supplies, and equipment furnished by the school. Students who deface, damage or lose school property shall be expected to pay for the damage or loss in accordance with Missouri School Law, 1956 Pub. No. 10, P. 163, Section No. 166,040.

Injuring School Property Penalty: "Every person who shall willfully injure or destroy any building used as a school house or for other educational purposes, or any furniture, fixtures, or apparatus there to belonging, or who shall deface, mar, or disfigure any such building, furniture, will be fined in a sum doubled the amount of damage done to any such building, furniture, or apparatus, and shall be fined in a sum not less than ten nor more than fifty dollars for each offense for writing, painting, cutting such words, figures, likeness or advice, to be removed by civil proceedings in any court to competent jurisdiction in the name and to the use of the school district to which the property may belong, and the punishment provided in this section to be in addition to and in lieu of the punishment provided by the statute regulation crimes and punishments for such offenses."

DISCIPLINE STATEMENT

The written discipline policy includes standards that are important for the maintenance of an atmosphere where orderly learning is possible and encouraged.

All district personnel responsible for the care and supervision of students are authorized to hold every pupil strictly accountable for any disorderly conduct in school or on any property of the school, on any school bus going to or returning from school during school-sponsored activities, or during intermission or recess periods.

The Board of Education has the legal authority to make all needed policies, rules and regulations for organizing and governing the school district. This includes the power to suspend or expel a student for conduct which is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of the students. These policies, rules and regulations will apply to all students in attendance in district instructional and support programs, as well as at school sponsored activities and events. Students who have been charged, convicted or pled guilty in a court of general jurisdiction for commission of a felony may be suspended in accordance with law.

Building principals are responsible for the development of rules and regulations regarding student conduct needed to maintain proper behavior in schools under their supervision. Principals, subject to appropriate due process procedures, may summarily suspend any student for up to ten (10) school days for violation of these policies, rules and regulations. Notice of suspension shall be given immediately to the parent or guardian, and to the superintendent.

Flagrant disregard for policies, rules and regulations, or continued truancy may result in suspension by the superintendent or expulsion by the Board, both subject to appropriate due process procedures. The superintendent may suspend a student for up to 180 school days; however, expulsion of students is a function only of the Board of Education.

Teachers shall have the authority to make and enforce necessary rules for the internal governance in the classroom, subject to review by the building principal. The Board expects each teacher to maintain a satisfactory standard of conduct in the classroom.

Any time a referral that warrants formal disciplinary action is submitted, a reasonable effort will be made by the principal to either contact the parent or guardian by written notice delivered by the student, through the mail, or by direct telephone contact.

All employees of the district shall annually receive instruction related to the specific contents of the district's discipline policy and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities, and instruction in the necessity and requirements for confidentiality.

A copy of the district's comprehensive discipline policy will be provided to every student and parent or guardian of every student at the beginning of each school year and will be available in the superintendent's office during normal business hours.

ALCOHOL/DRUGS

The use, sale, transfer, possession or being under the influence of alcoholic beverages or controlled substances on any school property, on any school-owned vehicle or in any other school approved vehicle used to transport students to and from school or school activities; or off school property at any school-sponsored or school-approved activity, event or function, such as a field trip or athletic event, where students are under the jurisdiction of the school district, is prohibited.

For the purpose of this policy a controlled substance shall include any controlled substance, counterfeit substance or imitation controlled substance as defined in the Narcotic Drug Act, Section 195.010, RSMo.

The school administration or teachers shall have the right to conduct searches, which are reasonable on scope, of persons reasonably suspected to be in violation of this policy during or after school hours on school property, or at any school event, whether at the school or at some alternate location. (See page 42.) Such searches shall be conducted in accordance with Board policy JFG.

Any student who, after being given an opportunity to present his/her version of the incident, is found by the administration and/or staff to be in violation of this policy shall be subject to suspension, expulsion or other discipline as provided in the district's discipline policy. Students may also be referred for prosecution. Strict compliance is mandatory. All controlled substances shall be turned over to the local law enforcement agency.

The District, pursuant to the requirements of the 1989 amendments of the Drug-Free Schools and Communities Act, and for the purpose of preventing the use of illicit drugs and alcohol by students, shall provide age-appropriate, developmentally based drug and alcohol education and prevention programs in all grades from early childhood level through grade 12.

Such programs shall

- (a) address the legal, social and health consequences of drug and alcohol use, and
- (a) provide information about effective techniques for resisting peer pressure to use illicit drugs or alcohol.

The District shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs in order to avoid suspension or expulsion if they are found to be in violation of this policy. All parents and students shall annually be provided with a copy of this policy.

WEAPONS IN SCHOOL

The Board recognizes the importance of preserving a safe educational environment for students, employees and patrons of the district. In order to maintain the safety of the educational community, the district will strictly enforce the necessary disciplinary consequences resulting from the use or possession of weapons on school grounds, buses or at school activities.

A weapon is defined to mean one or more of the following:

- (b.) Any device defined in § 571.010, RSMo, including a blackjack, firearm, concealable firearm, firearm silencer, explosive weapon, gas gun, knife, knuckles, machine gun, projectile weapon, rifle, shotgun, spring gun or switchblade knife.

In accordance with federal and state law, any student who brings or possesses a firearm as defined in 18 U.S.C. 921 or a device as defined in § 571.010, RSMo on school property or at any school activity will be suspended from school for at least one (1) calendar year or expelled and will be referred to the appropriate legal authorities. The suspension or expulsion may be modified on a case-by-case basis

upon recommendation by the superintendent to the Board of Education. Students who use or possess other weapons defined in this policy will be subject to suspension and/or expulsion from school and may be referred to the appropriate legal authorities.

This policy shall not be construed to prohibit the Board from allowing a Civil War re-enactor to carry a Civil War era weapon on school property for educational purposes so long as the firearm is unloaded. A report will be submitted annually to the state Department of Elementary and Secondary Education indicating any suspensions or expulsions resulting from the possession or use of a firearm as defined in 18 U.S.C. 921. The report will include the name of the school in which the incidents occurred, the number of students suspended or expelled and the types of weapons involved.

STUDENT DISCIPLINE

The Student Code of Conduct is designed to foster student responsibility, respect for others, and to provide for the orderly operation of district schools. No code can be expected to list each and every offense that may result in disciplinary action; however, it is the purpose of this code to list certain offenses which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, any aggravated circumstance of any offense, or any action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or Board of Education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the district, the superintendent or designee may reduce the consequences listed in this policy, as allowed by law. This code includes, but is not necessarily limited to, acts of students on district property, including playgrounds, parking lots and district transportation, or at a district activity, whether on or off district property. The district may also discipline students for off-campus conduct that negatively impacts the educational environment, to the extent allowed by law.

Reporting to Law Enforcement

It is the policy of the Jefferson C-123 School District to report all crimes occurring on district property to law enforcement including, but not limited to, the crimes the district is required to report in accordance with law. A list of crimes the district is required to report is included in policy JGF.

The principal shall also notify the appropriate law enforcement agency and superintendent if a student is discovered to possess a controlled substance or weapon in violation of the district's policy.

In addition, the superintendent shall notify the appropriate division of the juvenile or family court upon suspension for more than ten days or expulsion of any student who the district is aware is under the jurisdiction of the court.

Documentation in Student's Discipline Record

The principal, designee or other administrators or school staff will maintain all discipline records as deemed necessary for the orderly operation of the schools and in accordance with law and policy JGF.

Conditions of Suspension, Expulsion and Other Disciplinary Consequences

All students who are suspended or expelled, regardless of the reason, are prohibited from participating in or attending any district-sponsored activity, or being on or near district property or the location of any district activity for any reason, unless permission is granted by the superintendent or designee. When appropriate, the district may prohibit students from participating in activities or restrict a student's access to district property as a disciplinary consequence even if a student is not suspended or expelled from school. Likewise, a student may become ineligible for or be required to forfeit any honors and awards as a disciplinary consequence.

In accordance with law, any student who is suspended for any offenses listed in § 160.261, RSMo., or any act of violence or drug-related activity defined by policy JGF as a serious violation of school discipline, shall not be allowed to be within 1,000 feet of any district property or any activity of the district, regardless of whether the activity takes place on district property, unless one of the following conditions exist:

Jefferson C-123 School District, Conception Jct., Missouri

GRIEVANCE PROCEDURES

Students who believe their complaints have not been satisfactorily resolved may utilize the District's grievance procedure (Board Policy JFH), as mandated by law.

Any offense which constitutes a "serious violation of the district's discipline policy" as defined in Board policy JGF will be documented in the student's discipline record.

DISRUPTIVE/NON-COMPLIANT BEHAVIOR

If a student is being disruptive or non-complaint, the Jefferson C-123 Board of Education recommends the following procedure:

- a. The teacher should try to isolate the child in his/her room or place of disruption.
- b. If student will not cooperate and there is not another teacher in the immediate area to assist, the teacher shall send a responsible student to get a building principal or superintendent for assistance.
- c. The teacher is not to physically handle a child unless needed and done in an appropriate manner with the presents and assistance of another teacher or administrator-- unless there is immediate danger to themselves, the student, or other students.

CORPORAL PUNISHMENT

As stated in board policy JGA, no person employed by the Jefferson C-123 School District shall administer corporal punishment or cause corporal punishment to be administered on a student attending district schools.

A staff member may, however, use reasonable physical force against a student for the protection of the student or other persons or to protect property. Restraint of students in accordance with the district's policy on student seclusion, isolation, and restraint is not a violation of this policy.

DETENTION AND/OR IN-SCHOOL SUSPENSION

The provisions of detention or an in-school suspension program for student violations of policies, rules and regulations shall provide principals with an additional alternative for dealing with disciplinary problems that occur in the schools. When this alternative is appropriate, students will be assigned to serve a specified time period in the in-school suspension program. These assignments, and the determination of the time period for them, shall be determined by the principal, or his or her designee. A student assigned to in-school suspension will be required to complete assigned class work. 70% credit will be given for the work.

STUDENT SUSPENSION AND EXPULSION

NOTE: The following procedures apply to all students except those who are defined by Board policy as disabled. Procedures applicable to disabled students are described in Board policies dealing with the discipline of disabled children.

The Board of Education believes that the right of a child to attend free public schools carries with it the responsibility of the child to attend school regularly and to comply with the lawful policies, rules and regulations of the school district. This observance of school policies, rules and regulations is essential for permitting others to learn at school.

Therefore, the administrative prerogative to exclude a student from school because of willful violation of school rules and regulation, willful conduct which materially or substantially disrupts the rights of others to an education, or willful conduct which endangers the student, other students or the property of the school is permitted, provided such action is taken in accordance with due process and with due regard for the welfare of both the student and the school.

The term "suspension" refers to an exclusion from school that will not exceed a specific period of time. The term "expulsion" refers to exclusion for an indefinite period.

 - (b) disciplinary action resulting in a change in placement **may not** be taken
 - (c) the committee shall modify the student's placement or IEP, as appropriate

STUDENT RECORDS - (Board Policy JO-AF1)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records.

These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the school receives a request for access. Parents or eligible students should submit to the school principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the school to amend a record that they believe is inaccurate or misleading. They should write the principal or appropriate official, clearly identify the part of the record they want changed and specify why it is inaccurate or misleading. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right of a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the school as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the school has contracted to perform a special task (such as attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or professional responsibility. Upon request, the school discloses education records without consent to official of another school district in which a student seeks or intends to enroll.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. The name and address of the office that administers FERPA are: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202.4605.
5. The district has determined that the following information regarding the district's students is not harmful or an invasion of privacy and therefore will release this information without first obtaining

parental consent. If a parent, guardian, person acting as a student's parent in absence of a parents or guardian, or the student (if 18 or older) does not want the district to release the information listed below, they must notify the district in writing within ten (10) days of receiving this handbook of the information they do not want released.

The following information may be released without obtaining parental consent:

- Student's name; parents name; telephone number; electronic mail address; date and place of birth; grade level; major field of study; enrollment status (e.g., full-time or part-time); participation in officially recognized activities and sports including audiovisual or photographic records of the openly visible activities thereof (e.g. artistic performances, sporting contests, assemblies, service projects, awards ceremonies, etc.); weight and height of members of athletic teams; dates of attendance; degrees, honors and awards received; most recent previous school attended; and photographs including photographs of regular school activities that do not disclose specific academic information about the child and/or would not be considered harmful or an invasion of privacy.
6. Pursuant to federal law, military recruiters and institutions of higher education may request and receive the names, addresses and telephone numbers of all high school students, unless their parents or guardians notify the school not to release this information. Please notify the district if you do not want this information released.
 7. The Jefferson C-123 school district will transfer student records, including discipline records to another school district where the student is seeking to enroll.

PUBLIC COMPLAINTS

The School Board recognizes that situations of concern to parents/guardians or the public may arise in the operation of the district. Such concerns are best resolved through communication with the appropriate staff members and officers of the school district, such as the faculty, the principals, the superintendent, or the Board.

The following steps are proper procedures to be followed by persons with questions or complaints regarding the operation of the school district:

1. Procedures
 - A. Complaints on behalf of individual students should first be addressed to the teacher.
 - B. Unsettled matters from (A) above, or problems and questions concerning individual schools, should be directed to the principal of the school.
 - C. Unsettled matters from (B) above, or problems and questions concerning the school district, should be directed to the superintendent.
 - A. If the matter cannot be settled satisfactorily by the superintendent, it should be brought to the Board of Education. Questions and comments submitted to the secretary of the Board in letter form will be brought to the attention of the entire Board at a regularly scheduled or called meeting. If necessary, a Board hearing will be scheduled to resolve the complaint. However, the decision of the Board shall be final except in the case of complaints concerning the administration of federal programs. In that case, the complainant may go to the appropriate section of the Department of Elementary and Secondary Education and from there on to the United States Secretary of Education.

The Board considers it an obligation of the professional and support staff of the district to field the questions of parents/guardians or the public. Accordingly, the district will inform patrons of this complaint procedure and its availability for lodging complaints against the local district or the state. (see Board Policy KL)

BULLYING

General

In order to promote a safe learning environment for all students, the Jefferson C-123 School District prohibits all forms of bullying. The district also prohibits reprisal or retaliation against any person who reports an act of bullying among or against students.

Definitions

Bullying – In accordance with state law, bullying is defined as intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; that substantially interferes with the educational performance, opportunities or benefits of any student without exception; or that substantially disrupts the orderly operation of the school. Bullying includes, but is not limited to: physical actions, including violence, gestures, theft, or property damage; oral, written, or electronic communication, including name-calling, put-downs, extortion, or threats; or threats of reprisal or retaliation for reporting such acts.

Cyberbullying – A form of bullying committed by transmission of a communication including, but not limited to, a message, text, sound or image by means of an electronic device including, but not limited to, a telephone, wireless telephone or other wireless communication device, computer or pager. The district has jurisdiction over cyberbullying that uses the district's technology resources or that originates on district property, at a district activity or on district transportation. Even when cyberbullying does not involve district property, activities or technology resources, the district will impose consequences and discipline for those who engage in cyberbullying if there is a sufficient nexus to the educational environment, the behavior materially and substantially disrupts the educational environment, the communication involves a threat as defined by law, or the district is otherwise allowed by law to address the behavior.

School Day – A day on the school calendar when students are required to attend school.

Designated Officials

The principal of each building is hereby designated as the individual to receive and investigate reports of bullying. Each building principal shall designate at least two teachers or administrators in the building who are authorized to receive and investigate reports of bullying in the principal's absence or at the principal's discretion.

The district compliance officer appointed in policy AC will serve as the districtwide anti-bullying coordinator. The anti-bullying coordinator will receive all completed investigative reports from all buildings and analyze the reports to identify any information that would inform the district's antidiscrimination and anti-bullying education and training programs. In addition, the anti-bullying coordinator will assist in making any relevant reports as required by state and federal law.

Reporting Bullying

School employees, substitutes or volunteers are expected to intervene to prevent student bullying, appropriately discipline the perpetrator, assist the victim and report the incident to the building principal or designee for further investigation and action. Any school employee, substitute or volunteer who witnesses or has firsthand knowledge of bullying of a student must report the incident to the building principal or designee as soon as possible, but no later than two school days after the incident.

Students who have been subjected to bullying, or who have witnessed or have knowledge of bullying, are encouraged to promptly report such incidents to a school employee. Any school employee receiving such a report shall promptly transmit the report to the building principal or designee.

If the bullying incident involves students from more than one district building, the report should be made to the principal or designee of the building in which the incident took place or, if more appropriate, to the principal or designee of the building attended by the majority of the participants in the incident.

Investigation

Within two school days of receiving a report of bullying, the principal or designee will initiate an investigation of the incident. Reports that involve students from multiple buildings will be investigated cooperatively by the principals of each building involved, or those principals may request that the district's compliance officer designated in policy AC conduct the investigation. If at any time during the investigation the principal determines that the bullying involves illegal discrimination, harassment or retaliation as described in policy AC, the principal will report the incident to the compliance officer designated in that policy, who will assist in the investigation. If the alleged bullying involves a special education student or a student with disabilities, the principal will also notify the special education director.

The investigation shall be completed within ten school days of the date the report of bullying was received unless good cause exists to extend the investigation. Upon completion of the investigation, the principal will decide whether bullying or harassment occurred and, if so, whether additional discipline is warranted in accordance with the district's student discipline code. The principal will generate a written report of the investigation and findings and send a copy of the completed report to the district's anti-bullying coordinator. The principal or designee will document the report in the files of the victim and the alleged or actual perpetrator of bullying. All reports will be kept confidential in accordance with state and federal law.

If the incident involved allegations of illegal discrimination or harassment, the principal's decision may be appealed in accordance with policy AC. Student discipline may be appealed when allowed by law in accordance with Board policy.

The principal or other appropriate district staff will work with victims and their families to access resources and services to help them deal with any negative effects that resulted from the incident.

Consequences

Students who participate in bullying or who retaliate against anyone who reports bullying will be disciplined in accordance with the district's discipline code. Such discipline may include detention, in-school suspension, out-of-school suspension, expulsion, removal from participation in activities, exclusion from honors and awards, and other consequences deemed appropriate by the principal or superintendent. The district will also contact law enforcement when required by law or notify social media companies of inappropriate online activity when appropriate.

Even in situations where the district does not have jurisdiction to discipline a student for bullying, such as when the acts take place off campus and there is an insufficient nexus to the district, the principal or designee will take appropriate actions to assist student victims. Such actions may include, but are not limited to, contacting the parents/guardians of the victim and the alleged perpetrators, communicating that this behavior is not allowed on district grounds or at district activities, notifying the appropriate district staff to assist the victim, and taking additional action when appropriate, such as notifying law enforcement or social media companies of inappropriate online activity.

District employees and substitutes who violate this policy will be disciplined or terminated. Discipline may include suspension with or without pay, a negative evaluation, prohibition from being on district property or at district activities, mandated training or other appropriate remedial action. Volunteers who violate this policy will no longer be permitted to volunteer.

Policy Publication

The district shall annually notify students, parents/guardians, district employees, substitutes and volunteers about this policy and the district's prohibition against bullying. A copy of this policy shall be included in student handbooks and posted on the district's website.

Training and Education

The district's anti-bullying coordinator will provide information and appropriate training designed to assist employees, substitutes and volunteers who have significant contact with students in identifying, preventing and responding to incidents of bullying.

The district will provide education and information about bullying and this policy to students every year. The principal of each school, in consultation with school counselors and other appropriate school employees, will determine the best methods for facilitating the discussion. Methods may include, but are not limited to: assemblies; homeroom presentations; class meetings; team or club meetings; special presentations by counselors, social workers or mental health professionals; and open-house events. When practical, parents/guardians will be invited to attend.

In addition to educating students about the content of this policy, the district will inform students of:

1. The procedure for reporting bullying.
2. The harmful effects of bullying.
3. Any initiatives the school or district has created to address bullying, including student peer-to-peer initiatives.
4. The consequences for those who participate in bullying or engage in reprisal or retaliation against those who report bullying.

School counselors, social workers, mental health professionals, school psychologists or other appropriate district staff will educate students who are victims of bullying about how to overcome the negative effects of bullying including, but not limited to:

1. Cultivating the student's self-worth and self-esteem.
2. Teaching the student to defend him- or herself assertively and effectively without violence.
3. Helping the student develop social skills.
4. Encouraging the student to develop an internal locus of control.

Additional School Programs and Resources

The Board directs the superintendent or designee to implement programs and other initiatives to address bullying, respond to such conduct in a manner that does not stigmatize the victim, and make resources or referrals available to victims of bullying. Such initiatives may include educating parents/guardians and families on bullying prevention and resources.
