Thought for the Week: The September 11 attacks of 2001 caused the deaths of 2,996 people, including 2,977 victims and 19 hijackers who committed the murder–suicide acts. Miraculously, several people were pulled alive from the scorched wreckage of the World Trade Center. The last to be saved was Genelle Guzman-McMillan, a young migrant from Trinidad and Tobago. Somehow surviving a skyscraper collapsing on top of her, Genelle remained buried for 27 long hours before firefighters finally came across her.
